VOL. 14, NUMBER 62 MONESSEN, PA, WEDNESDAY, AUGUST 25 1915 SIX CENTS THE WEEK

Five Gamblers Arrested In Raid By Police Last Night

In an early morning raid at Twelfth street and Morgan avenue, Police Officers Pasco, Menefee and Fall arrested five foreigners on a charge of gambling. The officers were tipped off by one of the players who had lost his roll and the officers hurried to the house. Standing at the door they waited for some time until one of the players arose from the game to leave the room. When who had lost his roll and they rushed in and grabbing the cards they placed the men under arrest.

The man who made the complaint suddenly realized that he too would be charged with gambling, and running to the back of the house, he jumped to the ground, a distance of 30 feet and made his escape. At the hearing this morning all denied their guilt, but Officer Fall testified that he overheard the men talking about the game in the cells, and after a while they called the officers in and offered them each $15 if they would be set free.

Burgess Dunlap fined each man $10.00 and costs, amounting to $12, and as they all seemed to have plenty of money, they paid their fines and departed.

George Massock was charged with burning rubbish in the alley back of Schoonmaker avenue and had a fine of $3.00 to pay.

The men in charge of the erection of the Loeb building at Schoonmaker and Fifth were charged with violating the city ordinance No. 86 in regards to blockading sewers and using over one-third of the street. They were fined $5.00 and costs.

John Ward, of the Old Soldiers Home at Dayton Home, was the next prisoner. He was charged with being drunk, but allowed his freedom.

Bert Mack returned from Greensburg yesterday and got drunk. This being his first offense in the past thirty days he was discharged.

No More Carnivals At Donora

Donora has finally served notice on all carnival companies to stay away after an experience recently. The Donora American describes the experience as follows:

Th Greater Sheesley Shows appeared in Donora last week and the town is out about $15,000 as near as estimates can be made. Nine shows took in a total of $2,396.10 and there were 21 other attractions and concessions. The grounds were left in a condition that would nearly send a home business man to the pen if he allowed such a miscellaneous collection of refuse about his store.

For attractions the company carried all kinds of baby dolls, blanket and like paddle wheel gambling devices, three hoochee koochees and a revolting wild man, besides the regular stuff. A wrestling show was closed at the order of the burgess because of a quarrel over admission fees, but no attempt was made during the week to shut up any of the other features.

After the license had been procured, the soft tongued agent got the Donora Steel Works band to use its name with the promise of great returns. The members took tickets all week and after earning over $400 as their 15 per cent. share, were skinned by the aid of a tricky contract. The band was compelled to pay the ground rent amounting to $25, the license fee of $150 and $118 for electric lights, bringing their earnings down to about $138.

More Entries For Big Auto Races

With the cars now entered there is no question that the two-day auto race to be pulled off at the Belle Vernon race course Friday and Saturday of this week will surpass any similar meet ever held in this section of the state. The line of entries to date includes some of the most spectacular drivers in the game.

A pilot who will be seen for the first time in Western Pennsylvania at the Belle Vernon meet is Tom Rose of Pittsburgh. Rose is coming with his powerful 140 h. p. Mercedes Before Rose took the wheel for himself, he was mechanic for I. P Fetterman in many of the classics in various parts of the country including Indianapolis, Elgin and Chicago. Rose has a car with a wheel base of only 98 inches, which he believe will be a big factor in nailing a good sized piece of the prize money this week.

Fetterman's Simplex is the opposite of the Mercedes. It is the longest car entered to date, but is one of the speediest running in half-mile meets. Fetterman is a seasoned driver, having run against Bob Burman, Billy Carlson, Oldfield and other big pilots.

C. W. Johnson needs no introduction to race fans in this section of Pennsylvania. He will enter the Belle Vernon meet with the same car that he used to defeat DePalma in this year's Uniontown hill climb. Recently he has been doing some spectacular stunts on the half mile course and never failed to furnish an abundance of thrills.

Was Held For Court At Hearing

Peter Lucarikius, arrested Monday night on a charge of arson was given a hearing last night before Justice of the Peace A. N. Shuster. The Deputy Fire Marshall was present as the prosecutor and damaging evidence was brought against the accused. After the hearing Justice of the Peace Shuster held the case under advisement until 9 o'clock this morning, when he decided that evidence enough had been furnished to hold the young man for court. The accused was represented by Attorney Daniel Reamer. Mr. Lucarikius will be taken to Greensburg today and the court will probably admit him to bail. He is charged with setting fire to the furniture in his home on Park Way on the night of April 20, in order to secure the insurance on same. The house, the property of C. S. Pore, was damaged to the amount of $200 and the furniture almost completely destroyed. The fire was discovered by Matthew Koch, who in company with Patrolman Albright and John Dries attempted to extinguish the blaze without sending in an alarm. When they failed to work the fire extinguisher, an alarm was turned in and the fire department responded.

New Bathing Suit

Beach loafers are wondering whether the stockingless bathing girls who have evaded the Charleroi bathing beach will follow in the footsteps of their Atlantic City sisters who offered to the gaze of the public the backless costume during the past week. It created quite a stir and fairly overwhelmed everybody who saw it.

From the shoulders to the belt the backless suit is not unlike one of the fashionable winter ball gowns. It is cut out in a deep point which reaches almost to the waist and at the shoulders are mere nothings in the way of straps to keep it up. The girl who wore it for the first time evidently had been taking her daily dip in a suit cut much higher, for you could see the sunburned skin above the outline of her old suit.

Benefit Base Ball Game To Be Played This Evening

If Old Sol will only shine for a while this evening, the residents of this city will be given an opportunity of witnessing one of the greatest baseball contests ever staged at Page park, the contesting teams to be the Shadyside and Sunnyside diamond artists of Donner avenue. The game will be called promptly at 4:30 and the proceeds will be donated to the playgrounds fund.

It was the intention of both Manager Eddy and Lebowitz to keep the lineups secret for this contest, but fortunately the reporter secured the names of all players eligible for the game and discovered "ringers" galore on both sides.

For the Shadyside, Dale, Kiseda, Helzlsouer will work behind the bat Blackburn is scheduled to play second or pitch, Eddy will twirl or play left field, McCabe on second, Martz on short stop, Stefano on third, Garman in left field, Vaughn in center field and Ashcom on first. Four so called "ringers" are found in this lineup, they being Dale, a former church league star, Blackburn, a collegiate star, Garman of Notre Dame and Stefano, who may be traveling under an assumed name.

The Sunnyside lineup includes Derby as catcher. Hood on first base, Moore on second, Reese at shortstop, Chauncey Duvall in left field, Shepler in center, Ney in right and Dr. Duvall, Dr. Kelly, Dr. Israel and Harry Lebowitz as pitchers. This entire pitching staff has been recruited for the game from stars of former days and may be truly called "ringers" as they did not appear in the last contest. Little is known of Dr. Duvall and Dr. Israel with the exception that "Doc" Israel was at one time the star twirler for the Little Potatoes in New Kensington, while Dr. Duvall won a 24 to 25 game from Hickory when he occupied the mound for Ginger Hill in Washington county. Manager Lebowitz, a bowler, thinks he can make a strike on the diamond as easily as on the alleys and may be called on to do mound duty.

Entertained

Miss Gertrude Dougherty entertained a few friends last evening at her home on Reed avenue in honor of her guest, Miss Ethel Bowman of Steubenville. The evening was spent in playing games and a dainty lunch was served by the hostess. The following were present: Misses Jean Hood, Laura Cornwall, Alice Hammond, Beryl Thomas, Thelma Shutterly, Ethel Roberts, Ethel Powney, Laura Bell Herbert of Natrona, Ethel Bowman and Gertrude Dougherty.

Annual Outing

The Ladies Auxiliary A. O. H. will hold a basket picnic at Oakland park on the Charleroi-Bentleyville street car line, Friday, August 27th. Special street cars will leave First and Second streets at 9:30 in the morning and will stop at Sixth and Tenth street for picnickers. All children under sixteen years of age will travel free.

A committee in charge of the affair is arranging a sports program with a number of races for boys, girls and women. The special cars will leave the new park in the evening. A cordial invitation is extended the members of the auxiliary and their friends to attend the picnic and enjoy the day at this new park, which has just recently been opened to the public.

Boys Will be Boys

Yes, boys will be boys; and why should they not? Now, a boy should go to school, but there is no particular pleasure in that, for fun he wants and fun he will have. Your boy should be always nice and clean; it makes him look well—but even that does not satisfy his frisky nature. A boy should go to meeting, once or twice during the week, but, good as he is, he will crave for pleasure. We love a boy with a merry twinkle in his eye; he looks so cunning; and besides, he will need all the spirit of a young colt before he gets through the world. If properly trained, it will be to him what steam is to an engine. Did it ever occur to you to turn boy yourself and lay aside your dignified, serious airs? Try it. Play with them; laugh with them; talk with them; sing with them; and, when night comes, you can pray with them with a result you little dreamed of. If they can always have more pleasure with you than anybody else, you will always know where they are. Did you ever notice how the older animals play with their young? It looks funny you will admit. We have often laughed at an old stiff legged horse playing with a colt, and what a queer game of "tag" it was; the baby horse beat every time, but the little one always kept close its mother and was never heard to neigh. Parents, take a lesson and it will be possible to know where the "wandering boys are tonight."

Watch Your Temper

Tempers are queer things, anyway. We snap, and grow and scold, and fume and fret for no cause under the sun that we know of and when trouble really comes we smile and take it as unconcerned as though it was the most common place affair. We will sulk for a week over a slight that was all our imagination and grow all the madder because we know that the whole matter is an invention of our own. The fact is, when we feel good, a cyclone can't spoil our equanimity, but if we chance to be out of sorts and have the blues we are going to get mad and stay mad, and if we don't find any provocation, we will make one. The man who gets the blues—and who is there who doesn't get them?——is a most unfortunate creature. Ten minutes after the attack begins he has concluded that he is the most abused man on the face of the earth. Every person in the town is working against him—he knows it and it is no use to deny the fact. If the unfortunate man is married, he wreaks his disgust upon his wife, the baby and the cow.

PITTSBURGH EXPOSITION OPENS AT HISTORIC POINT THIS SEASON ON SEPTEMBER FIRST

Sousa and His Band, Russian Symphony Orchestra and Other Musical Features--Latest Appliances In Machinery

Under unusual promising conditions the twenty seventh annual season of the Western Pennsylvania Exposition society at the Point in Pittsburgh will open on September 1 for a shorter but more interesting and animated season, which will end on October 16 The season's plans call for four of the greatest musical organizations in the world to provide the series of concerts in Music Hall, and the collection of educational and entertaining exhibits will exceed former years, with greater diversion in character and higher type artistically than ever before The United States government display this season is to include representative showings from the department of the treasury, the department of agriculture, the department of the navy and the bureau of printing and engraving The United States mint will be represented with a coin machine usually used to make silver half dollars, but at the Exposition a government operator will turn out souvenir bronze medals on it with Exposition and Pennsylvania insignia on the faces, and which will be sold at the bare cost of making.

Free lectures will be a feature of the government display, these being provided by the government, and will cover the farm and orchard development work, and will interest many The government display will be equalled in many ways by the Baltimore & Ohio railroad exhibit which will be novel and wonderfully interesting, as it will cover the history of transportation from the earliest pages and will have for actual inspection the various forms of transportation used in the Orient and the South, even to Egypt and Turkey, centuries ago. It will contain the earliest locomotives of America, and some of the latest types as well

There are some wonderful inventions of recent date especially in connection with railroad equipment, including the very latest form of automatic air hose coupling which has been sought for for years past and now appears to be about ready as a solution to one of the greatest safety first problems, and that will increase many times the safety of employees coupling cars and trains together

The musical attractions will begin with the coming at the opening of Wassih Leps at the head of a splendid symphonic orchestra made up of fifty leading artists of Philadelphia The concerts by this organization are for two weeks' duration Then will follow the great Sousa band concerts, and then the Russian Symphony orchestra with Modest Altschuler in charge and with soloists and also the now famous "color organ," which will be seen for the first time in any city outside of New York This color organ gives visual coloring to musical renditions The closing programs will be by Creatore and his matchless concert band In every case, the musical organizations coming to the Point buildings this year will have with them vocal soloists, a new feature for many of them The first of these will be with the Philadelphia organization and one of these will be Miss Gertrude Hutcheson, soprano soloist who was recently with the Boston Opera company

Most important of the more recent developments of the exposition is the announcement that in all probability all railroads will run special excursions to Pittsburgh during this season for a distance of at least seventy five miles from the city This decision will create a fresh and more intense interest in the season and bring thousands to the Point that have refrained from coming for some time past Incidentally, the Point district, the most ancient community in western Pennsylvania the foundation of Pittsburgh as a city, has been undergoing so many changes the past year that old visitors will scarcely recognize it Streets have been raised, new pavements and sidewalks built, lighting arrangements improved and street car service made practically perfect with single fare to the Point buildings as usual

The big buildings are now in course of preparation for the big shows They are being redecorated and painted and in the main building a complete new concrete floor has been laid covering the entire structure Lighting designs and installation are to be new and contain many novelties There will be free moving picture shows and displays of model homes and means and methods for their designing and beautifying under all conditions. Home and domestic exhibits in fact will be one of the leading features of the exhibitors' end of the big show.

STAGE STARS FALL FOR CAMERA'S LURE

CHANGE FROM "MOVIE" TO "PHOTODRAMA" BRINGS MANY INTO NEW FIELD.

THE SCREEN'S WIDE SCOPE

Plays Presented in Photo Form Overcome Limitations of Spoken Drama —Pathe Announces Conversions.

It was only a short time ago as time is reckoned, since the stars of the stage spurned the advances of the motion picture manufacturers. Considering the "movies" as they contemptuously termed the film drama as a cheap and entirel ephemeral form of amusement they considered acting in them as beneath their dignity and preferred thirty week contracts at $200 to fifty two weeks playing in pictures at larger figures Today what a difference One by one at first apologetically, but now boldly to the sound of figurative trumpets the great names of the stage have gone over to the "silent drama"

Bruce McRae.

Here is a list of popular stage favorites recently secured by Pathe which illustrates the trend

Rhys Alexander Edwin Arden, Richard Carle William Courtleigh, Jr Clifton Crawford, Arnold Daly, Lionel Barrymore Frederic de Belleville Katherine Brown Decker, William Elliott Max Figman Wm Riley Hatch Gail Kane Sheldon Lewis Lillian Lorraine Fania Marinoff Bruce McRae Bliss Milford Lotta Robertson Jessie Ralph, and Melville Stewart.

Just one of those famous names attached to a photoplay two years ago would have made a sensation and yet the house of Pathe calmly announces now that other big stars will be signed in the near future!

DONALD MACKENZIE

Donald Mackenzie has set a high name for himself in the realms of filmdom He likes to tell the story of how he was thrust into the directing game 'forced" he says, but is modest on the subject of being to the manner born He was working in a Pathe picture some three years ago in the studio in Jersey City playing the lead when the director was taken suddenly ill Of course, this caused much commotion, there being no one to continue the work and get the picture out, and plans were all upset Chief Director Louis Gasnier now General Manager, sent for "Mac" and asked him if he could direct the picture as well as act. Mr Mackenzie hesitated about taking on the responsibilities of the job but Mr Gasnier said that he had watched him at work and knew he was equal to the task Mr Mackenzie with the intuition of the canny Scot at last agreed to complete the picture and made such a success of it that he has been making pictures for Pathe ever since 'So you see I was 'forced' into being a director, with Mr Gasnier as the propelling force!" he says.

Otto Kahn
On Financial Farm Loans

Every citizen who desires to become capable in business should study banking, and every farmer who wants to see the business of agriculture properly financed should study diligently the financial systems of other industries All other lines of industry have developed financial facilities adapted to their needs We have all sorts of financial syndicates authorized by law or custom to deal in a certain line of securities, but in none of these financial channels will farm securities travel without a bonus in the way of an excessive rate of interest or heavy discounts

The most powerful financial institutions in America are private banks and they are the most important to the financial life of industry In no line of business does honesty, efficiency and stability make more imperative demands than upon private bankers, whose greatest asset is the confidence of the buying public in his business judgment and integrity Mr Otto Kahn of Kuhn, Loeb & Company, when asked to state the relation of the private banker to the business of the nation, said in part

'One of the most important functions of the private banker is to be the instrument for providing the money needed for the efficient conduct and development of railroads and other industries He does this by buying securities in bulk from those needing capital for which purpose he usually associates himself with a large number of other financial houses great and small, thus forming what is called a syndicate Having in this way concluded the buying transaction he offers to the public the securities purchased by means of advertising, circularizing and through the facilities of the retail houses included in the syndicate, many of whom employ traveling salesmen Of course the banker and the syndicate count on a reasonable profit for their services, on the other hand they run the risk of the securities which they have definitely bought and paid for at a fixed price remaining on their hands wholly, or in part if the public for one reason or another, should be unwilling to buy them The selling of securities is a highly specialized trade, requiring much experience organization, machinery and scrutiny This is one of the reasons why corporations do better in offering securities to the public through bankers than if they offered them direct The willingness of the public to buy depends upon their confidence in the integrity and the judgment of the banker who makes the offer and a banker who attempts to mislead the public, or who is deficient in care or judgment, would very soon find himself without customers and therefore, out of business In many European countries the functions of the private banker include the placing of bonds secured by farm mortgages Bonds of this nature are issued in large quantities by mortgage banks who buy mortgages on farms and other real estate and deposit them as security for their own bonds which in their turn are sold to bankers It is to be hoped that similar institutions will in course of time, be created in America thus placing the farming industry on a par with other important industries in facilities to obtain capital"

OUR PUBLIC FORUM

F. A. Vanderlip
On The Business of Banking

The farmers of this nation to come into their own must study business We must, as a class, understand the fundamental principles that underlie every industry, its functions to society and its relation to agriculture, for there can be no intelligent co-operation without understanding Mr F A Vanderlip, president of the National City Bank of New York, when asked What is a Bank?" said in part

'The first and most familiar function of a bank is that of gathering up the idle money of a community, small sums and large, and thus forming a pool or reservoir upon which responsible persons may draw as they have temporary use for money It is evident that this makes large sums in the aggregate available for the employment of labor and the development of the community But much more is accomplished than the use of the money actually deposited in the banks, for by the use of drafts, checks and bank notes the efficiency of money is multiplied several times over. A very large business for example one of the great beef packers, may use very little actual money, on one side of its bank account will be entered the checks and drafts it is daily receiving from everywhere in payment for meats while on the other side will be entered the checks it draws in payment for cattle, etc, its only use of money being for small payments, to labor and otherwise

'If there were but one bank in a community and everybody paid all bills by drawing checks on that bank, and everyone receiving a check immediately deposited it in the bank, the amount of money in the bank evidently would not change at all and the entire business of the community would be settled on the books of the bank. And the situation is but slightly changed when there are several banks, for they daily exchange among themselves all the checks they receive on each other, which practically offset themselves although the small balances are paid in cash This is called 'clearing,' and in every large city there is a 'Clearing House' where representatives of the banks meet daily to settle their accounts with each other

"A bank is constantly receiving from its customers particularly those that are shipping products to other localities, drafts and checks drawn on banks in other cities, which it usually sends for deposit to a few correspondent banks in the central cities with which it maintains permanent accounts In this way these scattered credits are consolidated and the bank draws upon these accounts in supplying customers with the means of making payments away from home As each local community sells and buys about the same amount abroad in the course of a year these payments largely offset each other It is evident that the banks are very intimately related to the trade and industry of a country The banker is a dealer in credit much more than a dealer in money and of course his own credit must be above question He exchanges his credit for the credits acquired by his costumers and lends credit for their accommodation, but he must conduct the business with such judgment that he can always meet his own obligations with cash on demand This is the essential thing about bank credit, that it shall always be the same as cash

F. C. Howe
On The Advantages of Free Ports

Mr F. C Howe, Federal Commissioner of Immigration, who is one of the best American authorities on marine commerce in discussing the relation of free ports to the development of sea trade said in part:

"Ships will go hundreds of miles out of their way to avoid ports surrounded by a tariff wall The only way therefore, for a country with a tariff to compete in the shipping world with a free trade country is to establish free ports at strategical points along its coast line Germany has done so and in a comparatively short period has built up a carrying trade which before the war was seriously threatening England's supremacy Hamburg one of the three German free ports, now ranks as the second greatest seaport in the world its total foreign commerce in 1913 being only $6,000,000 under that of New York.

"The free port would offer great opportunity for financial operations now made possible by the recent currency act It would stimulate international banking, and would tend to shift the financial center of the world to this country And America, by the logic of events, has become the natural center for the world's financing, just as London became that center several centuries ago, when it shifted from the cities of the Netherlands But the financial center will only move to this country when it becomes a clearing house of goods as well as of money. For credit the world over is created by currently created wealth in transit or change so that our financial expansion is dependent upon the opening up of American ports to the clearance of the wealth of the world A port should not operate to yield a return on the investment but to develop the prosperity of the country In recapitulating the advantages, Mr. Howe brings out the importance of the free port in developing our shipping and linking us with South America, Asia and Africa, and then concludes:

"The most important gain is the direct gain to America It will cheapen commodities by bringing great quantities of goods to our doors for importation or export, as trade needs demand It will stimulate the growth of exporting houses, which can hold goods for an indefinite period without payment of tariff dues (often equal to the cost of the article itself) for disposal to meet the trade demands of the whole world It will upbuild international credit and shift to America an increasing and normally a predominant share in international exchange.

"Finally, America is the natural country to be the counter of the world Its seacoasts face every other continent it is the greatest of all reservoirs of raw materials and foodstuffs In iron and steel and standardized production it is in a position to compete with the world But international trade (and this is always overlooked) must be reciprocal It cannot be one-sided And credit balances cannot for any prolonged period be paid in gold They can only be paid by exchange of wealth."

BIG COUNTY FAIR EVENT OF SEPTEMBER

Westmoreland county's big agricultural exhibit at the Youngwood grounds on September 7, 8, 9, 10 and 11 is one of the big events of the fall season in this county. Aside from the attractions at the big county fair, there will be numerous reunions of well known families. On one of the days the Youngwood I. O. O. F. will be hosts to their fellaw lodgemen at a reunion to observe the anniversary of the Youngwood lodge.

The racing program arranged for the three last days of the fair will afford splendid amusement for the followers of the light harness horse. The track is one of the fastest half mile speedways in the state, and with fair weather conditions will see some fast miles reeled off by the trotters and pacers.

The splendid fruit crop this year augurs well for an abundance of fruit exhibits at the big fair. Not in years has there been so many peaches and plums with a liberal harvest of the other garden and orchard products. It is expected that the exhibits of tall corn, oats and wheat stalks will be a feature of the freak attractions at the big fair.

Sporting Notes

The University of Chicago baseball team sails today for Japan, to play the three great universities there.

Sportsmen of the Northwest will gather in Minneapolis on Friday to talk conservation of big game. A shooting and fly-casting meet will be held next year.

Charle White and Milburn Saylor are picked by most sport authorities as the best contenders against Freddie Welsh. A half dozen other aspirants are in the field.

The Pittsburgh Pirates have annexed a pitcher who sounds good to the ear. His name is Cary Fortune and he comes from Asheville.

The champion tidewater swimming race in New York harbor from the Battery to Sandy Hook is set for Sunday, Sept. 5.

Goulding, the Canadian walking champ, has taken up swimming. He was originally a good middle-distance runner.

Frank Kramer, who has held the professional sycling title for 14 years says he will retire at the end of the present season.

Next Monday the national lawn tennis championships will begin at Forest Hill, Long Island. Some exciting contests are expected.

Honus Wagner, while making good on the ball field, has established records in other things. He is a chicken fancier, a dog-breeder, fisherman and basket-ball player. However, his mighty club is not overshadowed.

The three cushion billiard title held by George W. Moore will be defended by Moore against William B. Huey of Chicago next month. DeCro will meet the winner.

Yachting is the costliest of American sports. It is figured out that $2,500,000 is required each year to support the different clubs.

Dragoons.

Four centuries ago, when firearms were in their infancy, soldiers were named from the weapons they bore. Thus infantrymen were called "pike or "shot," according to their weapons. The "dragon" was a short musket or carbine, and the soldiers who bore them were dragoons. The original dragoons were mounted infantrymen, being organized as infantry. On this account, being without cavalry training, they were decidedly poor horsemen, but they improved until they were classed as medium cavalry.—American Boy.

Gold and Iron.

Iron and gold when melted together may be mixed in various proportions and hardened or crystallized. Alloys containing 10 per cent of gold are harder than pure iron, but as the proportion of gold increases above that amount the alloy becomes softer. Silver and iron do not form alloys.

Illuminative.

"This meter," explained the gas company official, "measures the quantity of gas you use."

"And," asked the misanthrope who is present on all gladsome occasions, "where is the meter which measures what you charge for?"—Philadelphia Ledger.

Not Artistic Work.

Footlight—And was the performance artistic? Miss Sue Brette—No; the scenery and the leading lady were both badly painted.—Yonkers Statesman.

DOING THEIR DUTY

Scores of Monessen Readers are Learning the Duty of the Kidneys

To filter the blood is the kidney's duty.

When they fail to do this, the kidneys are weak.

Backache and other kidney ills may follow.

Help the kidneys do their work.

Use Doan's Kidney Pills—the tested kidney remedy.

Monessen people endorse their worth.

Mrs. J. F. Leonard, 7 McKee avenue, Monessen, says: "I was bothered by a dull, heavy pain in my back for several years. While doing my housework, my back throbbed just like a toothache. If I stooped over, the pain caught me and I could hardly straighten. I often got so dizzy that I had to sit down. My head ached and my eyes were affected. I felt tired and languid all the time. I tried everything but didn't improve until I got Doan's Kidney Pills at the Hirsch Drug Co. The second box drove away the trouble. Occasionally I take a few doses of Doan's Kidney Pills when I work hard or catch cold. They never fail to help me."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Leonard had. Foster-Milburn Co., Buffalo, N. Y.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
